

Gaussian, Inc. Academic Price List

PRICING FOR DEGREE-GRANTING INSTITUTIONS IN THE USA

These prices apply only to academic, degree-granting institutions within the USA. They do not apply to supercomputer centers or centers serving more than one site, nor to supercomputer versions of Gaussian, nor to any institution outside of the USA.

Maintenance is available for all versions of Gaussian, GaussView and TCP Linda. Please contact us for information and pricing.

Gaussian 09 for UNIX

LICENSING

A signed license is required prior to shipment. All pricing in this section is for site licenses (unlimited number of copies).

MULTIPROCESSOR AND CLUSTER/LAN PARALLEL PROCESSING INFORMATION

Parallel program execution on multiprocessor/multicore (shared memory) systems is included in UNIX versions of Gaussian 09. Parallel program execution on clusters and/or across separate computers in a LAN requires a TCP Linda license in addition.

DOCUMENTATION

Purchasers of G09 licenses receive 1 free copy of the *Gaussian 09 User's Reference* and *I/Os Reference*. New license purchasers also receive *Exploring Chemistry*. Source code license purchasers receive 1 free copy of the *Programmer's Reference*.

AVAILABLE VERSIONS

This version of Gaussian 09 applies to computers running Linux or UNIX and to Intel-based Macintosh computers running Mac OS X (for single copy Intel Mac licenses and all licenses for Mac OS X on Power PC-based hardware, see page 3).
